POWDER COATING SERVICES ELEVATED

Once per quarter, we digest relevant news of the powder coating industry, and how our company continues to grow; meeting and exceeding demand.

Performance Powder Coating has been serving the industrial community in Central Florida since 2012. As a team of professionals we take pride in the work we deliver, handling everything from industrial level machinery and commercial equipment, to automotive and marine solutions. Our 15,000 sq. ft. facility with dual 30-ft ovens, is the best choice to handle your next project.

THE BIGGER THE BETTER.

PPC NAMED 2021 BEST OF LONGWOOD: POWDER COATING

Performance Powder Coating was recently recognized by the Longwood Award Program, as the best of Longwood in the powder coating category.

This award represents the contribution that Performance Powder Coating makes to the industry in the Central Florida area. We are proud and flattered by the positive response from our community, and will continue to meet and exceed client expectations.

COMMUNITY SPOTLIGHT

This segment is devoted to bringing you the latest in news and industry that impact our business here in Central Florida.

EVEREST ICE & WATER

This quarter our featured partner is Everest Ice and Water Systems. We have been fortunate to work with Everest to create unique pieces that prove industrial and commercial projects do not mean a boring job.

EWS specialize in ice manufacturing and sales through franchisable vending machines; bringing cleaner, fresher water direct to the consumer. This year, they were selected as **#2024 on the Inc. 5000: America's Fastest Growing Private Companies**.

Congratulations to Everest Ice and Water Systems for their recent and future success. We look forward to our continued partnership.

WEATHERING THE STORM

Whether you are a fellow Floridian, or call somewhere else home, severe weather conditions are unavoidable. Luckily, in addition to a custom finish, powder coating can help protect your project.

The pre-treatment process adds lasting durability to the material. Powder Coating can maintain that finish for up to 20 years

Powder coating can protect more metal and non-metal surfaces than you might think. Finish and protect a louver, fence, boat, or outdoor furniture that are vulnerable to the elements.

There are a variety of coatings to suit different conditions. Resistance to moisture, abrasions, and chemicals or long-term UV exposure and heavy weather, or to simply maintain beautiful color and gloss, powder coating can do it all. Let PPC show you how to weather the storm.
